HOME CONTROL

21°C

Home automation is an automation company operating in smart homes, smart buildings, and smart hotels. Our automation products are divided into two parts wired system powered by HDL company support knx protocol and buspro protocol and the wireless system powered by TUYA company support wifi protocol and zigbee protocol .

OUR SERVICES

Residential

One-stop purchase. Integrated whole-home experience

Commercial

Improve occupant experience, minimize operation cost and increase the value of buildings.

Hospitality

Better guest experience, higher efficiency, lower operation cost.

Buspro

Control Panels
- Touch display panel
- Touch panel
- Push botton panel
- DLP panel

Controllers/Actuators
- Relay
- Dimmer
- Curtain motor
- AC contoller
- Logic controller

Sensors
- PIR Sensor
- Air quality sensor
- Lux sensor
- Multifunctional sensor

Gateways
- System Gateway
- KNX-Buspro Gateway
- RS232 Gateway
- RS485 Gateway

Audio/Camera
- Background music player
- Ceiling mount speaker
- IP Camera

Software
- System software
- Smart home application software
- Commercial monitoring software

Proprietary, flexible, various features, powerful, truly intelligent

KNX® Products

Lighting
- Relay
- Dimmer
- DMX 512 Gateway
- DALI controller

Sensor
- OmniSense Sensor
- Ceiling Mount PIR & Lux Sensor
- PIR Sensor
- Mini Ultrasonic Sensor

Climite control
- CoolBox VRV Gateway
- AC Controller
- Infrared Emitter

Shading
- Curtain actuator
- Curtain motor

Gateway
- KNX net/IP Router
- KNX-RS485 Gateway
- RS232/485 Gateway

Control panel
- Granite
- Granite Display
- DLP
- DLP Touch
- iFlex
- iTouch

Dry contact
- 4-Zone Dry Contact Module
- 8-Zone Dry Contact Module
- 24-Zone Dry Contact Module

Other devices
- Power supply module
- KNX Line Coupler
- USB Interface
- Master Slave Timer Controller

KNX

Lighting

Shading

Lighting Control

- On/Off, lighting Dimming and Color (RGB)
- Lighting scenario depend on situation (in house / out / romance / work out
- Can be controlled by motion sensors
- By touch switch, Mobile and voice commend

shutters and Curtain Control

- On/Off
- Automatically open in morning
- Automatically closed in the evening

**HOME AUTOMATION**
Your Home Will Be Smart

Access control products

- Support remote and on-site entry of visitor and tenant information.
- Provide access control based on ID cards, fingerprints, passwords, facial recognition, or access control cardS

Energy consumption management products

- Enable remote meter reading and intelligent power supply/cutoff.
- Support wired and wireless solutions.

IoT gateways

- Support products such as Wi-Fi, Zigbee, and Bluetooth.h

SECURITY SYSTEM

Security sensors

- Identify device status.
- Deliver real-time notifications for exceptions.
- Enable scene linkage.

Whole-house smart products

- Support remote control.
- Provide various linkage modes

HOME AUTOMATION
Your Home Will Be Smart

SECURITY SYSTEM

Motion Detection
- Control light based on movement
- Can give Alarm

Smart Camera
- Control through Mobile
- Motion detection and follow
- **365** and night vision
- Mic and Speaker
- Memory
- Alarm
